It All Started in 1997....

Bitten by the track bug shortly after the purchase of a used E30 M3, BimmerWorld was founded in 1997 by James Clay as a way to fund his new-found obsession for building fast BMWs. We come from humble roots selling used parts stripped from racecar donors and a small assortment of racing brake parts from a small unheated metal building. But from our inception, we have built our business on deep-rooted passion for making BMW cars the ultimate performance machines.

Now, 20 years later, BimmerWorld is proudly recognized as North America's largest independently owned BMW tuner. With over 30 employees and 20,000 square feet of office and warehouse facilities in our Virginia location which houses over 10,000 parts, we now ship thousands of packages to BMW owners, enthusiasts, and racers in all corners of the world. Our performance and development arm continues to provide proven solutions from both in-house design and manufacturing as well as partnerships with premier aftermarket suppliers.

BimmerWorld's rich history of BMW Parts and Racing are certainly worth celebration, but perhaps more worthy are the people that helped sculpt this history. For this reason, on Saturday, October 14 we are inviting all customers, employees past and present, current and past drivers, vendors, race partners, friends, family and all BMW owners and enthusiasts to join us for an EPIC Open House event.

Join in the Festivities

This will be a fantastic gathering for any BMW enthusiast. We will be hosting many special guests, giving away free gifts, raffling prizes, displaying BimmerWorld BMW race cars and Project Cars, giving tours of our shop and BMW parts facility, as well as other events to be announced on the day.

Lunch is on us!

We're serving a complimentary BBQ lunch at 1pm. Bring your appetite and we'll do the rest! If you want to do lunch on your own, there are also a handful of local restaurants and fast food establishments nearby. (If you leave, please hurry back as the event is set to end at 3pm.)
